

G (Governance)

Transparency and Fairness Proven by Obtaining The Highest Grade(AAA) for The First Time in The Construction Industry

Since introducing the Fair Trade Compliance Program (CP) in 2003, POSCO E&C has made consistent efforts to systematically operate the voluntary compliance council and conduct risk prevention activities, and has achieved the first highest grade (AAA) in the construction industry.

Integrity, Respect, Mutual empathy, practicing ethical management that complies with the 3 ethical principles

Ranked 1st in the construction/machinery sector in the 2024 ESG brand survey (Korea Economic Daily, 2024.09)

Maintaining ISO 27001 information security management system certification (Continuously renewed since first acquired in 2014)

Enhancing disclosure transparency by publishing a sustainability report based on Global Reporting Initiative guideline (GRI Standards 2021) (2024.06)

POSCO E&C publishes and transparently discloses the "Sustainability Report" every year, which contains the year's sustainability management activities and performance. The 13th sustainability report can be viewed on the website.
